

PHARMACY UPDATE: Ambetter from Home State Health to Implement Specialty and Hemophilia Networks

To support Ambetter's continued growth, while maintaining the best coverage at the best price, Ambetter from Home State Health will implement a hemophilia pharmacy network effective November 1st, 2020 and a specialty pharmacy network effective January 1st, 2021. All Tier 4 drugs must be filled by pharmacies participating in these new networks.

WHAT TO KNOW FOR AMBETTER MEMBERS

- This change ensures pharmacies providing specialty and hemophilia drugs are well versed in these products and provide our members with excellent clinical support.
- This change was approved by all applicable regulatory and compliance teams within Centene.
- Ambetter's Rx resources webpage will be updated to explain the hemophilia and specialty networks.
- Ambetter's Tier 4 definition will be updated in the formulary to state...
 - *Coverage for this tier is for "specialty" drugs used to treat complex and chronic conditions. These drugs that may require special handling, storage or clinical management. Prescription drugs covered under this tier require fulfillment at a pharmacy participating in our "specialty" or "hemophilia" networks. For additional information on which pharmacies are within our specialty networks, please consult Ambetter website's pharmacy information section."*
- Members impacted by the hemophilia network received a letter, postmarked by September 1st, 2020, regarding this change.
- Members impacted by the specialty network will receive a letter, postmarked by November 1st, 2020, regarding this change.
- This change only impacts members who fill hemophilia and/or specialty medications.
